Festive Forest Applique

By Sarah Nunes @BerryBarnDesigns

1. Trace tree and star templates onto iron-on adhesive (I like HeatnBond Lite). Cut out with 1/8" margin around outside borders.
2. Apply adhesive to wrong side of fabrics following manufacturer's directions. Cut out trees and star along outside borders. Peel backing paper off.
3. Place trees and star on background fabric using layout below (mine finished at 12" x 18" — perfect for hanging, placemats, or even a throw pillow!). Iron to backing fabric following manufacturer's directions.

4. Sandwich tree top, batting and backing, then baste.
5. Stitch around each tree 2-3 times 1/8" from edge to quilt and create raw edge applique finish on trees.
6. (Optional) Embellish trees with more stars, garland or tree trunks.
7. Finish wall hanging/placemat/pillow as desired. Enjoy!
